RUN YOUR BUSINESS ANYWHERE WITH HYBRID POS

OrderCounter has perfected the best of both worlds. We run with the *reliability* of an in-house server but with the *accessibility* of a cloud solution, allowing you to view your data and run your business anywhere from any device.

OrderCounter offers many all-in-one restaurant management solutions designed to power your business. We'll work with you to implement a reliable POS system that will help your business grow.

HYBRID POS

- » Intuitive, easy-to-use, with fewer touches

ORDERTAB

OrderTab transforms your restaurant operations with its portable design, combining the functionality of a POS station in the palm of your hand. Spend more time with guests, making service faster and checkouts quicker.

- » Take orders on the go
- » Enjoy seamless online and offline ordering capabilities with built in redundancy
- » Accept various payment methods at the table (EMV, card), and print receipts instantly.

MULTI-UNIT ENTERPRISE

OrderCounter offers centralized oversight, access, and menu management for both large and small restaurant groups. Our POS solution ensures all areas showcase the same thing.

- » Centralized Menu Control, Reporting, Gift Card Management, Loyalty, and Backups
- » Manage product sales
- » Multi-Unit Comparison Reporting
- » Graphic Intuitive Interface
- » Real-time alerts

- » Corporate Presentation Builder
- » Make menu changes and updates once
- » Deploy new locations quickly and easily
- » Apply changes to all stores or select locations

## EMPLOYEE SCHEDULING by

schedulegofer

- » Monitor labor costs
- » Streamline scheduling
- » Adjust alerts and stay organized
- » Manage requests easily

HYBRID REMOTE BACKOFFICE

While OrderCounter runs on an in-house server, the system functions as your personal cloud, allowing you to view your data anywhere from any mobile device.

- » View up-to-the-second analytics
- » Schedule Inbox Reports
- » Drill down on employee oversight
- » Manage inventory anywhere
- » Real-time menu management
- » Compatible with iPad, iPhone, Android, Mac, and PC
- » Security

KITCHEN DISPLAY SYSTEM

Enhance efficiency and accountability in your back of house operations:

- » Keep your kitchen running smoothly
- » Improve FOH and BOH communication
- » Run a paper-free kitchen
- » Enhance workflow with timed prompts
- » View All Day Screens
